

ADULT EDUCATION

ALUMNI STUDY

Join the National Adult Education Alumni Study!

You worked hard to achieve your goals through adult education—and we want to hear from you.

Adult education changes lives. It opens doors to better jobs, higher education, stronger families, and brighter futures. Now, you have an opportunity to help show just how powerful that impact can be.

By joining the National Adult Education Alumni Study, you'll help researchers better understand how adult education continues to influence graduates, their families, and their communities over time. The information you share will help tell the story of adult education nationwide and support future investments in programs that change lives.

Participating is easy. Simply enroll in the study, and COABE will contact you up to two times each year with a brief survey. Every time you complete a survey, you'll automatically be entered into our incentive program.

Most importantly, your participation is a way to give back to the adult education community that helped you succeed. By sharing your experiences, you're helping ensure that future learners have the same opportunities to achieve their dreams.

Benefits offered for your participation:

- ◆ Free membership for 5 years
- ◆ Opportunity to attend COABE conference for free for up to 5 years
- ◆ Opportunity to join a community of practice to network with other alumni leaders
- ◆ Opportunity to take advantage of certificate opportunities offered through Google, IBM SkillsBuild, and Cornell

More incentives offered quarterly.

Time commitment: 2 surveys per year.

Brought to you in partnership by:

Your journey can inspire change.
